The paratrooper takes his life in his hands when he descends through alien skies. But first he is a handpicked man, goes through gruelling training and receives the finest equipment yet devised—for his and your security.

and your security.

As his strack is our defence against Axis domination so Brantford Roofing defends many a home against the beating of the weather. But just now, because it's built of strategic materials, the supply of Brantford Roofing is limited.

Brannora Roome, is immired.

Supplies available for civilian use are rationed to desiers, to ensure an equisble share in each community. To stretch raw materials as far as possible, all Brandord Roome jilies have been standardized on a minimum range of styles and solberts.

If you are faced with roofing problems, ask your Branford Roofing dealer to saint you. He will help you make your present roof last longer and effect urgent repairs with a minimum of new material. He will also help you plan now for a completely renorated roof after victory.

THE WAR ISN'T WON YET

Sure, we're doing well ... but it isn't over, and we can't afford to relax our efforts as long as there is a single one of our men within range of enemy fire, nor as long as the enemy has any fighting ability left.

We can hasten victory. We can speed. the end of the war. We can get our men back home, victorious and sooner, if we do our part without slackening, without complacency.

And we can quicken the coming of peace and happiness in which our wartime thrift will be rewarded. The Victory Bonds we have bought during

the war will be our keys to opportunity, and to the enjoyment of new things when the war is won.

The Fifth Victory Loan will start October 18th. Lend your savings to your country-and plan to lend more out of income

Every dollar you put into these bonds is still your dollar . . . earning good interest . . . growing into a nest-egg that ensures your future.

You are not giving . . . you are LENDING, and what you lend is helping to shorten the war, to hasten the happy days.

WAR-WINNING INVESTMENT

• Fighting men trained and equipped in Canada, and tools of war made here, financed with money borrowed by Canada from her people, have had much to do with keeping the enemy away from our shores. Truly, our beloved country has been spared.

And our men and women, and the ships, planes and weapons we are still sending to the front, are keeping Canada's name notable in what well may be the decisive stage of the greatest war of all time. In light of latest developments, it must be clear to all that Victory Bonds do, indeed, foreshadow Victory. The temporary sacrifices, and the readjustments in our normal financial plans that we may have to

make to buy them, are surely a cheap price to pay for the rewards they win.

There is reason to believe that the great struggle that has for so long disrupted our way of life is approaching a decision. Money must be had to keep our ships sailing, our planes flying and our fighting forces on the road to success. Soon there will be another issue of Victory Bonds. The proceeds will give impetus to our forces to push home the sword of triumph. No matter what the temporary sacrifice, be ready to buy more Victory Bonds when the call comes. Prepare now to buy all you can. Every bond you buy will contribute to the downfall of the enemy. And remember, the war won't be over till we win it!

IN BUILDING OR REMODELLING

From the workshops of Tip Top Tailors comes one military garment ... every 8 seconds!

Every time your watch ticks off 8 seconds, a military uniform of some kind is completed at Tip Top Tailors. Day in, day out, hour after hour, this remarkable record of production has continued without let-up.

has continued without let-up.
Since 1939 this has been our all-out job. The
skill and experience gained in over three
decades of outning Canadian men and women
she, of course, helped us to meet and overcome
the many production problems which were
inevitable. And so today from the "clothing

arsenal" which is Tip Top Tailors, flows a steady stream of fine uniforms for the world's best-dressed men and women—the Armed Forces of Canada.

This will help you to understand why there must be a delay at times in delivery of civilian agarments to our customers—for the greater part of our facilities is devoted to war needs. Without question, this must have priority over all other production. We are sure you agree with us.

When we sit down next Monday to the Traditional Thanksgiving festivity, let us remember how fa-credible such a meal would seem to the vast majority of the peoples of this world. Already he's learning to stand on his own feet, a young man with ideas; self-reliant, courageous, ready to out a future by his own personal efforts.

Many of these young men of to-morrow—future leaders—already have accounts of their own at the Royal Bank. They have spare-time jubs, work hard and save some of their money for the day when op-portunity will beckon. Theirs is the sprit. that has made this country great. It is the spirit that will build a Canada worthy of her future.

Jim...do you realize how much we're worth in VICTORY BONDS alone?

ne of the best ways to save. JIM: Well, let's see: We bought a \$100 bond the first losn, and

b found it so easy to pay for on the installment plan that we
doubled that for the second and third loans: That's \$500

right there!

MARY: Then, the last loan, to help back the attack, we signed up for a \$500 bond.

little bit more. That will give us a nice nest-egg for the future: When peace comes we can start building that home we've got planned. And there'll be plenty of good business opportunities to look into:

MARY: Besides all the things we'll be needing when everything is available again:

JIM: But by gosh, Mary:::despite the kick we get out of providing for the future, I get my greatest thrill in knowing the money we lend is helping to beat the enemy..: to bring our croops home quicker ::: and make this a better world for our children

MARY: It all ties together, Jim. By investing everything we can in Victory Bonds, we are being practical as well as patrious That's why, with victory on the way, we should save harder than ever before:

 Yes . , and we're all ready to give you the kind of tire service want at our Front St. We've put in the most modern equipment. Made Bar-agar's Service Station the most up-to-date in Eastern Ontario. Come in and see us

Lots of folks want 'Crown Brand' but I NEED it!"

More Crown Brand Syrup is being made than ever before, but, in these days of shortages, Crown Brand Is doing a big, war-time job in Canadian homes.

Of course, when he has stock, your grocer will first supply his customers who have tiny babies and then will do his best to provide The new 31th best Crown Brand for other needs.

Please try and help the availablesupply go around. Don't buy more than you need when you find it at your grocer's. Remember-the wee babies need it most.

Slippers for Daddy, Johnnie? Why, you don't even know what he looks like . . . he went to war before you were born!

Happily, you don't know the dangers and hardships he faces, or for how long he may have to face them. And even we grown-ups can easily forget it.

Of late your Daddy has helped to bring victory so much nearer. We even begin to think of peace again with loved ones home and all the sorrows, miseries and restrictions ended. We are tempted to sit back and relax -to feel that there is no longer so much need for self-denial.

But therein, Johnnie, lies danger. For victory is being won by hard fighting that uses up our strength and resources every hour of every day. We must keep on building them up faster and still faster. For every little chance we give our enemies means a longer wait before Daddy comes home.

So now is the time for our greatest effort -the test that can make possible everything for which we are longing.

Soon we are going to be asked to buy more Victory Bonds, Johnnie. Only if we strain our utmost to buy to the limit-every one of us -can we give our victory offensive its full power. Surely, then, we must accept our duty without question . . . just as your Daddy is accepting his.

And the more willingly we accept it, the sooner it will really be-"Slippers for Daddy"

BUCKWHEAT CAKES TIME

Now the frost is in the air. Blue the haze at early dawn.

Blue the haze at early dawn.
There is color everywhere.
Old and ragged looks the lawn.
Autumn's resting on the hills.
Harvested are fruit and grain,
And the home with gladness thrills.
Buckwheat cakes are back again!

Every season has its joys,
Every day its touch of mirth.
For us all—both girls and boys—
God has well supplied the earth,
What if care must fall between
Peace and pleasure now and then?
Atturns holds this happy scene:
Buckwheat cakes are back again!

At some battle post afar,
Munda Field or gray Attu,
Yankee soldiers stationed are,
Facing death for me and you.
There, recalling foys they miss.
To their fighting fellow men,
They no doubt are saying this:
"Buckwheat cakes are back again!"

Time and trouble change us all.
Youth gives way to middle age,
One by one our fancies fall
Till we reach life's final stage, Till we reach life's linal stage, But in spile of aches and pains And the difference old age makes, Man devoted still remains To a stack of buckwheat cakes.

DEPARTMENT OF LABOUR

this order requires that no male employee be released, nor may he separate, from a job in either of the

two top labour priorities—"A" and
"B"—without first securing special
permission from a National Selective
Service Officer.

The order bears equally on employer and employee: both are restrained from any wastage of man hours through needless labour turnover.

An employer is obligated to post a notice in the form prescribed, where his plant or undertaking is covered by the order, so that his employees will be informed of the regulations as applying to them.

All are urged to comply in the national interest. Penalties are provided for failure to comply.

Anyone wishing information is requested to enquire at the nearest Employment and Selective Service Office.

THE TOUGHEST JOB 15 AHEAD OF US

THE PAPERS are full of good news ... the future is bright with promise. But don't forget for a minute that the toughest job is ahead of us ... the job of smashing the enemy on their own home ground.

Sooner or later Victory will come. It's up to you...and to every other Canadian...to make it sooner. Think of the Canadian lives that can be saved...the wounds that can be prevented ... the thousands of Canadian homes that can be made happier...by going all out now to shorten the war and bring the boys back to peace and security. That's the big and inspiring job we at home have to tackle.

On October 18th Canada's Fifth Victory Loan will be offered. You will be able to tackle this great job. You will have it in your power to help speed up Victory with your savings and income just as surely as our Canadian boys are speeding it up with their bayonets.

Canada knows you won't hesitate. Canada knows you won't hold back. For this Fifth Victory Loan is the most important yet...the biggest in amount, in effort, and in aim and purpose. Make your plans now to buy Victory Bonds. Cut every corner in your Budget. Buy Bonds with your savings. Buy them on the installment plan.

ROARING INTO BATTLE, hurling shells into enemy defence positions, the Tank Troops are right at home in the high-speed warfare for which they are trained and toughened.

But there comes an anxious moment when the Tank Commander heads the land battleship for a pre-arranged "harbour" to get supplies and ammunition. With enemy air-craft overhead, enemy scouts prowling on all sides, camouflage is quickly thrown up and protective guns placed in position.

Out of the dusk, right on schedule, wheels a 3-ton supply lorry in the sure hands of the Army Service Corps. Sharp-eyed gunners watch all sides and into the air, while in the half light, the men work like ghostly stevedores packing away shells, ammunition clips, food, fuel and water.

Brief minutes later, the job is done; the tank snorts away to battle and the Army Service lorry rolls away to keep another "Rendezvous under Fire".

Modern scientific warfare demands faultless performance from both men and machines. And Ford of Canada workers-nearly 15,000 strong give their skilful best to each operation from blueprint to final testing at Windsor, Ontario. The knowledge that the vehicles they make will serve the United Nations on all fronts is a constant challenge and an inspiration.

FARTHING TO STAY

WHEN I read the war news my heart keeps saying: 'Hurry! Hurry!' They can't finish it up fast enough for me.

"Some of our boys have been over there nearly four years, I know, and Jim has been gone only eighteen months. But I want him home —soon, soon!

"I just can't sit still and wait. So I've got myself a war job. And when I'm not working, I'm planning, and that keeps my mind busy all the time.

"When the war loans come along I buy all I can, and every month I fighte out how much we have cashed away between us, and I write to Jim and tell him how much it is, and how we'll start out all over again after the war.

"I tell him about the little house we'll have-the shiny kitchen-the living room with a great big cosy chair-and the garden -I want hollybocks all along the back fence - oh, I dream up the whole thing -

"I live on as little as I can, now, to help hurry things up, and so we'll have more money than we ever thought of having when he comes home. The way I feel these days I believe I could sell a lot of Victory Bonds. All I would say would be, 'I've got a husband overseas, and I want him home . . . soon.' Surely people would understand that."

THE LIVING LOST

This I think I hear them say: "We, in Sicily, who sleep Think of us what times you pray, But do not too often weep. Speaking of us do not sigh Or our sacrifice regret. We shall live when many die Who the foe have never met.

"Do not say we were too young! Never think too much we paid

Never think too much we paid
That the school bells shall be rung.
God be worshipped unafraid.
Grieve a little if you must
But, remember, walk head high!
We are prouder turned to dust
Than the safe, who didn't die!

"Do not dwell too long with pain Do not dress too long in black Let your faith in us remain

Though we're never coming back.
With Old Glory in the sky,
And the world at peace and free,
We shall live though many die
Who seemed luckier than were wei"

"You . . . with every other loyal Canadian . . . must do your part to keep our army, navy and air force up to fighting strength, to keep every factory, farm and shipyard at top speed. YOU . . . with every other loyal Canadian, must, to win this war, put your every effort into the most colossal purchasing budget ever projected by Canada ... BUY MORE VICTORY BONDS.

Only now are we beginning to know the tremendous task before us. We see

our sons, our brothers, our fathers . . our friends depart, and we know in our hearts that many of these faces we shall never see again. We know the price we shall pay in wrecked bodies and silent grief. It makes no difference-WE ARE READY. Today we stand united against a common enemy who would destroy us all. We know now that the final great test has come, that we have come to the days of grim decisions. These are also days of hope, of faith and a prospect of everlasting peace, that once more the faith and idealism of our fathers are working in our hearts.

BONDS AND SPEED THE VICTORY!"

Once more the flag moves forward, the hope of the world, a light to the oppressed and downtrodden, a promise to our children, the living, magic symbol of all that we are, and all that we still can hope to be.

It has fallen to us to carry this burden, to make Canada and the world, safe. It is our duty and our life to invest in this, Canada's Fifth Victory Loan and invest in the only insurance which can assure the confinuance of a way of life that has become our most cherished possession. Buy your bonds now and share in this assured victory and peace eternal.

Decline of Nazi Air Power

Decline of Nazi Air Power
In a short article in yesterday's newspapers, readers had presented to them a
graphic story of the decline of Ocering's
Luftwaffe. The writer was Harold V. Boyle
of the Associated Press. He said in a deinthe German air force is slowly dying

Germany had prepared her air arm but she has not been able to achieve the essentials with it. Now as Boyle says, her air power appears bled dry by four years of war as the success of Allied raids on German industrial city targets day after day and night after night so clearly

Give Complete Addresses

How important it is to address correctly, letters and parcels for men in the services is indicated in the current news letter of the Hamilton Chamber of Commerce. The Hamilton Spectator, drawing attention to this, points out that the Post Office auththis, points out that the Fost Office auth-orities have frequently directed attention to the trouble caused by careless corres-pondents, who are guilty of the most qur-dently of the contraction of the contraction of citen takes "long laborious search to supply the missing information, a serious matter in times like the present."

Collecting spider-web is one of the many duties performed by women in the Auxiliary Territorial Service. It requires a delicate touch and a steady hand. A spider delicate touch and a steady hand. A spider is caught and dropped from one hand to the other. As it falls, it spins a fine strand of web. This strand is attached to a metal frame smeared with shellac and the frames are stored for use as required. Occasionally, this fine strand is not enough. ATS craftswomen then split a strand in two under the microscope.

Liar's Dilemma

(Los Angeles Times) and the terrible Russian winter, and snows served as an aibli for the Nazis' earlier eastern front setbacks. Now it's up to little 206 Geobels to think up some new ones—and fast. One may expect to hear any minute, therefore, that Russia's summer, handle, therefore, that Russia's summer, heat and dust were, just too much for the gallant defenders of Orel and Belgorod. What Berlin's champion explainer is going to need pretty soon is an alibi that can be stretched to cover all the seasons.

There's Nothing Like Home Ownership!

LET US HELP YOU START YOUR PLANNING N-O-W

O supply our men on the fighting fronts, to assist the United Nations and to maintain essential services on the home front, requires every ounce of energy of the Canadian public.

This is total war, with liberty the prize. Canadians realize we can not win that prize without hard, steady work.

Steady Work.
Under a recent order, issued in pursuance
of National Selective Service Civilian
Regulations, thousands of Canadians—
employers and employees—are expected
to forego some part of their peacetime
liberty in regard to employment matters,
in order that the Nation's war anachine may increase its pace - rather than operate at less than capacity.

In order to conserve the working forces in war industries and essential services,

this order requires that no male employee be released, nor may be separate, from a job in either of the two top labour priorities—"A" and "B"—without first securing special permission from a National Selective Service Officer.

The order bears equally on employer and employee: both are restrained from any wastage of man hours through needless labour turnover.

An employer is obligated to post a notice in the form prescribed, where his plant or undertaking is covered by the order, so that his employees will be informed of the regulations as applying to them.

All are urged to comply in the national interest. Penalties are provided for failure to comply.

Anyone wishing information is requested to enquire at the nearest Employment and Selective Service Office.

Employers and employees alike are urged to strike a blow for freedom!

Keep production at full capacity!

HALLOWE'EN

IN WARTIME

The Kinmen Clubs, of Canada, have been sending millions of quarts of milk to the under-nourished Children of Britain. This year we are going to help them on Hallowe'en and are happy to give up our rights to our time-honoured Hallowe'en customs.

Instead of asking you to "Shell out" candles, peanuts and fruit (which are hard to get) we are asking you to donate to the KINSMEN "MILK-for-BRITAIN" Fund the amount of money you would thus have

You buy tickets to-day from us, at one cent each, and on Hallowe'en intead of asking you for a "Shell out" of treats—we'll come around, in costume of course, and collect these tickets. You'll need several strips to take care of all the kids who will be out that night working for MIR-6-0-8RITAIN.

You can bet, too, that we will be too busy to do much mischief that night, because the KINSMEN are giving us prizes for the most tickets collected... and besides we'll want to get through in order to hurry to swell the party the KINSMEN are giving us back at the school.

Thanks a lot,

The Kids in town-and in Britain, too!

P.S.—Not to mention the "Thank You" that the KINSMEN asked us to pass on to you.

When the Victory Loan salesman comes to your door-be ready to help SPEED THE VICTORY

On four previous occasions Canadians have all worked together to put Canada's four Victory Loans over the top. Last Spring, two and a half million folks from factories, farms and mines, from the Armed Services, offices and homes, came forward and loaned their savings and their earnings to help win the war.

Today, as Winston Churchill has said, the war "is perhaps entering for us British and Americans upon its most severe and costly stage". Today Canada has more forces in the field. Today production from our factories, shipyards, mines and farms is on a scale many times greater than ever before. So Canada asks her people to support the greatest Victory Loan of all.

5,200,000 Canadians are now earning money throughout the Dominion. Each and every loyal Canadian is asked to do his or her part. Teamwork is needed for quick and complete victory. Let us all work together to make this loan a success—to Speed the Victory.

When parlor critics sit about And shake their heads and frown and

I wonder were the problems ours—
Instead of General Eisenhower's—
If we who think ourselves so wise
Could better run the enterprise?

So far the distance! So secure! So far the distance! So secure!
So quick in judgment and so sure
Of all that should or shouldn't be,
Fault-finders, one and all, are wel
And yet, our own mistakes are such
They prove we do not know so much
Oft in our blunders down the years n incompetence appears

The after-look, the second glance, Remove the vells of doubt and chance. Nor is it hard, when all is seen To sit and tell what could have been. So when the parioc critics rave And, sage-like, sit in judgment grave, I thank my Hars in that grim hour That I'm not General Eisenhower.

Why gunner died in my arms today;
I feel his warm blood yet,
Your neighbor's dring boy gave out

who has seen 31 months of convoy duty on the north and west Atlantic IN FEBRUARY, 1942, Bill Cowie was sweating in the stokehold of the Canadian corvette "Barrie". Off Iceland, the convoy they were

escorting ran into a U-boat pack. The escorts fought it off, only to encounter another, and then another, "It was a running battle for a week and a half," says Cowie. "Two merchant ships and a Free French corvette were torpedoed. Thirty-five of the corvette's crew were lost. The "Barrie" and another ship brought the rest - almost three dozen ships - safely to port. As revenge, on

the way back we tackled a sub - and we think we 'got' her." Bill Cowie had a close shave when a depth charge exploded alongside his corvette, smashing surface pumps and cracking boiler seams. While he was aboard the corvette "Buctouche", they sank a U-boat not far off Nova Scotia. Earlier, his ship, a British armed merchant cruiser, helped a convoy of 30 tankers elude a Nazi surface raider,

This man knows the thrill of action against Hitler's water wolves. He knows what it is like to see fighting comrades go to their deaths. He has seen the look in the eyes of torpedoed merchant seamen snatched

from expected death.

"There's a big job to be done yet," says Bill Cowie, "and it can't be done unless folks at home back us up. We'll do the dirty work gladly. All you have to do is lend your money. If you could spend just one minute in action out on the Atlantic, you wouldn't hesitate about buying bonds."

Stoker Petty Officer W. H. Cowie, ROYAL CANADIAN NAVY

But it is the thousands of Bill Cowles is our fighting forces who are winning this war for us. Let's back them up. Let's help them speed the victory!

(Copywright, 1943, Edgar A. Guest) By EDGAR A. GUEST THE BANKER'S WIFE

My Nellie thinks the happiest life Must be to be a banker's wife Who wears a necklase round her throat, And has a lovely ermine cost, And at the acclais and the teas Is one all others strive to please, as if their men gave this advice: "Remember' now, to her be nice!"

"Remember now, when her you meet Be smiling, gracious and discreet. If you are nice as you can be Her husband may be nice to me, Be sure to praise her gown and hat, He may extend my loan for that, And though to subh her you're inclined. For goodness sake, don't speak your mind!"

And yet, perhaps the banker's wife May have her share of fretful strife For if, for her, he wears the frown He shows the customers in town And keeps his heart as cold to her, She really needs that cost of fur! All through the years she's doomed to so to go mned to hear his icy: "No!"

I wonder if from her he gets
A statement of her little debts
Which, should ask falsley, were crime,
Before he'll let her have a dime?
If so, then not her wish must be
That she had wed some fool like me
Who, married forty years or so,
Has found no way of saying "No!"

Woods operations and other essential industries varying with the district—base longhore work, meat and fahr packing—face Winter labour abortages. Therefore, any man on the farm not needed at home during the Fall work in one of these other essential industries until the farm again requires him. A staff house goes up in Halifax, where nearly 2,000 homes have been built. Wast scheme is more than a real estate undertaking. Its monthly magazine,

Roy Parker is one of many thousands who have found comfortable homes in Wartime Housing projects. Here he is at work in Genelco gun plant, at Peterborough.

The Parker home is a bright and pleasant residence. Rosemary, 14, Jack, 12, and Mrs. Parker keep place trim. Two years ago Parker closed his summer resort

at Keswick, on Lake Simcoe, came to Peterborough to get into war work. He roamed the streets for three months to find a home and move his family in from Keswick.

Wartime Housing finally came to the rescue with this cosy, six-room bungalow. Picture shows Parker in his well-furnished living-room, with daughter Rosemary.

Wartime Housing tries to keep its tenants happy. It sponsors numerous community activities: sports, dances, health service, home improvement, baby clinics, etc.

Red Cross sewing circle is very active. Mrs. Parker is a member. At right, Mrs. M. S. Thompson, Local Wartimo Housing Community Counselve and group librarian act in comfort, meals and recrustional fieldlites.

Mr. King-Jaly 25, 1943

Mr. Churchill—July 27, 1943

"Nevertheless, lot us not allow this fevousable inclination of our fortunes to blind us to the immensity of the task before us or of the exertions still to be made, and privations and tribulations still to be endured and overcome."

THE COMING HALLOWE'EN

They would not have us shake our heads
Or bid their little pranks to cease,
Or send the youngsters to their beds,
For Hallowe'en is part of peace,
and Rallowe'en sing art of peace,
and Rallowe'en and goblins small
And ghosts which walk about in white,
And jack-o'lanterns, after all,
Are next of that for which they flosh Are part of that for which they fight.

These sons of ours, at posts away, Are trusting us at home to be. As brave of spirit as are they Who fight the foes of liberty. Who fight the foes of heerty.

And little children, dimly seen,
Who through the windows come to peel
And frighten folks on Hallowe'en,
Are part of that they fight to keep.

* FLIGHT-LIEUT. D. P. MACINTYRE, D.F.C., D.F.C. (U.S.)

Canadians, this is one of the men who is fighting for us. He didn't want his own story told, and only consented when we explained that it would help to sell Victory Bonds. Quiet, friendly and unassuming, he wears the ribbons of two Distinguished Flying Crosses side by side-one conferred on him by Great Britain—the other a decoration by the United States of America.

Born and educated in Saint John, N.B., from Public School to the University of New Brunswick, he took up

the quiet life of a school teacher. He tried repeatedly to join the R.C.A.F., but he never got past the corporal at the front door. A travelling unit, with a medical examiner, arrived in town one day. They stopped MacIntyre on the street and inquired the way to the recruiting depot. He hopped on the running-board, drove past the corporal, and had his medical

Young MacIntyre had his adventures over the desert, too, and he got a ribbon from the United States for a job over Benghazi, He didn't want to talk about that, either. But he had some remarks to

make about the comradeship of the desert,

and the democracy. No ranks or badges except on duty. When the

boys line up for grub, they stay in line. If the commander is eighth in line, he is served eighth. Once MacIntyre saw a hig shot push ahead. The cook promptly roured, "get into line." The big shot grinned - and did.

Raids. They had plenty of raids. They bombed Hamburg, Ruhr, Essen,

and the big Renault works north of Paris. Finally they were shot down in Norway.

After a series of breatn-taking experiences that cannot be, told now, Lieutenant MacIntyre

escaped and found his way back to his own squadron. He got the British D.F.C. for that exploit. He's overseas again now, after a short holiday in Canada.

We asked him what the lads "over there" thought about our Victory Loans. He told us that the men follow any news of these with

st —and lots of them subscribe themselves. Flyers in England and Africa be lieve there is a very fine effort being put up at home - and that Canadians are really "digging deep" . . . that it was a pretty swell feeling to know that the folks at home were doing a "job."

We who stay behind have a deep and solemn obligation to our men in the armed forces. Our debt to the dead is to carry on the task for which they died-our obligation to the living is to shorten the war, to bring them home sooner. Our privilege, as well as our responsibility, is to "dig deep"—deeper than before—and buy Victory Bonds.

As his strack is our defence against Axis domination so Brantford Roofing defends many a home against the beating of the weather. But just now, because its built of strategic materials, the supply of Brantford Roofing is limited.

Brantord Roohng is limited. Supplies available for civilian use are rationed to dealers, to ensure an equitable share in each community. To stretch raw materials as far as possible, all Brantord Roofing lines have been standardized on a minimum range of styles and colours.

If you are faced with roofing problems, ask your Brantford Roofing dealer to assist you. He will help you make your present roof last longer and effect urgent repairs with a minimum of new material. He will also help you plan now for a completely renovated roof after victory.

Our Army, our Navy, our Air Force are fighting our battle on many fronts.

Cannons and rifles go on about their deadly business, bringing screaming, sudden death to thousands of our men—bringing pain and writhing anguish to countless others—the lads who lie dead in the mud and at the bottom of the sea have found peace 'midst 'war's rattles' —but who among them would not exchange the peace for a chance to fight again, and for the chance to return home after the war?;

War loves to seek its victims in the young, who relinquish so much of life —unlived.

They went into battle gladly, buying our freedom with their blood, so let's loan more gladly, loan more freely—and bring those who are left, home sooner. Are not the things asked of us small in comparison to the price our boys are paying for victory—and all that it brings? We think of them fighting, but do we know as they do that fighting is killing and being killed? Let's really put our shoulders to the warwheel. Let's work harder, buy more bonds—and co-operate in any and every way to bring the war to a more imminent finis. Let Hastings County set the example for others by going over the top in this 5th. "Elmer dear," smiled Elsie, "you can sell me a Victory Bond any time!

"Me too, Daddy!" piped up Beulah, "I've been saving up to buy a Bond—I know this is the Victory Loan that counts!"

"What a bright family I've got!" chortled Elmer. "Hey, Elsie, you forget to add the last nought to the amount we're buying?"
"Well, I thought we were only ..." hesitated Elsie. "Do you really think we can afford to put that much into ..."

"All-right! All right!" Elsie where do I sign up?"

"No-I'm not!" gurglet Elmer, "I'm just dared with the best reason of all for buying Victory Bonds—every estra Bond we buy may cut Hitler's life one day shorter! Think of it!" "That's so, Elmer! We'll call that Borden's own reason—and if it's Borden's, it our to be good!" said Elsie. "So, let's all dig deeper-let's buy more and more and still more Victory Bonds to SPEED THE VICTORY!"

for him...for yourself!

IT ISN'T LONG BETWEEN ECSTATIC BABYHOOD and eager, striving, hope-filled manhood.

You know yourself how often you've said: "It seems only yesterday he was a tiny wee chap. Look at him now. He's grown up!"

Yes, all the tens of thousands of cute little fellows kicking joyfully in their baby beds now will be grown people in the twinkling of an eye.

Grown to live in what sort of a world? Just how far can we build from war's desolation to a happy, brilliant world in that short span? Probably a long way!

But the "How far?" has a companion question: "How soon?"

How soon will Victory come? What day, what hour, will the flaming news leap round the world that, the enemy surrenders unconditionally?

Pursue that question right down to its very end and you'll get the answer. It depends on how earnestly each one of us works and saves and lends. In the final analysis it depends on all of us — on our willingness to stretch to the utmost our abilities to buy Victory

So buy again-and again-for our future and for the future of the little fellows who will be men in the twinkling of an eye. Make sure it will be unconditional surrender—that we will win the peace as well as the war-that life in the future will be life in security, freedom and abundance.

HOW TO BUY. Girs your order to the Victory Lean saleman who calls on you or piace it with any breach hask or trust company. You can also buy Books through your employer for cash or on the Pyroll before the property of the
